

The Freedom Force Strategy

Freedom Force is being formed to address certain specific challenges in the patriot movement to retake America.

Operations like the Tea Party, Town Hall and 912 movements have done a great job of waking folks up, getting them engaged in protesting their runaway government, identifying the very real assault on American freedom, liberty and prosperity. But now that patriots are figuring out that nobody in Washington is the least concerned with their complaints and opinions, even mocking them as nothing more than fringe groups of KKK racists, these movements fall short of the mark of affecting change.

The very real challenges to a productive counter-movement must be met somehow.

- Divided we fall – and with more than 2000 grassroots movements pulling in a 100 different directions, it's easy to dismiss all of them as “fringe” factions unable to mount a united resistance.
- No short term “game changing” strategy exists for how to defend freedom and liberty long enough to let grassroots initiatives have an impact.
- All 2000 initiatives are grossly under-funded. The left is spending billions to destroy America, in a very unified strategy. We cannot mount a successful resistance without proper funding and an equally unified strategy.
- He who controls the flow of information, controls public policy by way of public opinion. How many times do we have to read that “most Americans” support socialism (under a more progressive name) and realize that this is due to massive misinformation in the press and “push-polling” techniques, before we realize that we have to change the flow of information?
- Mobilizing millions of patriots in a single direction is almost impossible. Yet if we don't find a way to do it, we will lose our country forever.
- If the movement doesn't become tangible and fast, the movement will die in its infancy.
- If we don't stop certain attacks on freedom and liberty today, we will not have the tools we need to win in the future and we will never reverse the damage already done.

These are the primary challenges to mounting an affective counter-resistance to the ongoing assault on American freedom, liberty and prosperity today. If we fail to meet these challenges, then the resistance fails.

Uniting the Right

Unlike the left, which functions on group think and group actions, the right is made up of free-thinking independent minded individuals not accustomed to “community organizing” concepts. The right is made up of self-sufficient individuals accustomed to meeting life’s challenges on their own.

As a result, there is no shortage of ideas or leaders on the right. That’s why we have 2000 leaders leading in a hundred different directions at the moment, each equally certain that they have the right plan and can accomplish the goal all alone, as they have done all of their lives.

But this challenge is different from anything they have ever faced before.

- The leftist movement is massive, international.
- It is VERY well organized, around the globe and in America.
- It is VERY well funded.
- They play by no set of rules, other than the Rules for Radicals.
- They plan on taking no prisoners and are happy to destroy every American in their quest for a New World Order.
- And they are years ahead of the opposition, already in full control of the White House, congress, the judicial system, the press and academia.

In short, they control everything today. So, mounting a successful counter-movement is made much more difficult by the fact that the right currently controls none of the tools needed to stop the left from steamrolling forward.

A Multi-faceted Strategy

There is no silver bullet. It isn’t that there is not a ONE THING strategy capable of stopping the assault on America, there are several single-stop options available actually. The problem is, most Americans will not take any of those options.

- An extended nationwide tax revolt by millions of American taxpayers will stop socialism dead in its tracks. Without the ability to bankrupt YOU and run on your assets, socialism will die an instant death. Communism and socialism always fail, the moment the well runs dry. When lawmakers get IOUs instead of paychecks, we would have their full attention. But how many Americans are prepared to accept the consequences of an extended nationwide tax revolt?

- Millions of pitch-forks and torches marching on Capitol Hill will work too. But 2 million Tea Party goers forgot to bring their pitch-forks and torches.
- People talk about “armed rebellion,” but let’s get real for a moment. The checkbook is much lighter than the gun. People who won’t take up their checkbook to fight tyranny are not very likely to ever take up a gun to fight it either.
- Removing a complete fraud from the Oval Office, along with all of his co-conspirators will do the job as well. But people are afraid of being called “racists” or “birthers” for upholding the Constitution and the rule of law.

So, while there are single shot options available, most Americans are not yet hurting enough personally, to take any of those options. This allows the left to march forward unchallenged and they will break the back of every American because, socialism looks good to people with no other means of feeding their family. They will vote for socialism over starvation every time...

The Freedom Force Strategy

1. **Unite the factions** – We need ONE national Tea Party group, ONE national 912 group, ONE national Town Hall organization, ONE states sovereignty and security initiative, ONE national Precinct Chair initiative, ONE American Grand Jury Center, ONE national candidate vetting service, and ONE national “game changing” initiative that makes the collective patriot movement the single largest LOBBY group in Washington DC today. They all need state and local leaders, but we only need ONE national organization in each case, so that all patriots are moving in the same direction at the same time.
2. **The Patriot Lobby** – is the centerpiece of the Freedom Force project. It’s the “game changer.” In addition to Freedom Force’s ability to raise funds and help support each of the above national initiatives, we need a real “game changer.” We need the ability to affect change immediately, before the 2010 and 2012 election cycles, and beyond. Washington DC is pushing the nation into a socialist train wreck because they have the money (power) to do so and the right is too divided to stop it at present. Despite efforts by the right to “send a message” to GOP leaders, the message has been misinterpreted. Defecting from that party has only left that party in the hands of leftists or leftist lites (aka moderates). Instead of running from the GOP, the right should be running the GOP. To do that, they will have to seize control of the RNC one way or another. Money is power in politics, and it is the “peaceful” means of seizing control. We can’t change the game until we control the game. With a patriot war chest greater than the RNC war chest, we can affect patriot change immediately in Washington DC. Politicians can be bought (lobbied) and patriots must buy (lobby) them.
3. **Seating patriots in government** – is the long term solution. To do that, we need a national candidate vetting service, a precinct chair operation in every county able to help patriots advance to the general election and a national PAC and 527 to make sure that we don’t just remove

RINOs from office, leaving a leftist in the seat. We can't just remove RINOs, we have to replace them with patriots, or we have made matters worse. It takes money to do that, spent in the right places at the right moment. It must be a nationally organized effort or once again, we will do ourselves and the nation more harm than good.

4. **State legislatures** - MUST defend their citizens against the federal government in the meanwhile. 2nd, 9th and 10th Amendment rights must be protected by the states at this time. The states MUST reject ALL federal policies at odds with the Constitution, including National Health Care, Cap and Trade, International governance, the Global Warming Swindle, tyrannical taxation and many other affronts to American freedom, liberty and prosperity. Freedom Force will help all state legislatures act within their constitutional rights to defend citizens and states rights from the FED.
5. **Freedom Force will ask all vetted patriot candidates to sign a Freedom Force pledge before receiving any campaign support from Freedom Force.** More importantly, Freedom Force will remain engaged as a LOBBY even after candidates are elected, to make certain that their voting records remain consistent with the Freedom Force pledge they signed. We will only support candidates who uphold and defend the Charters of Freedom.

Money is Power

It doesn't matter whether or not we like it. Reality is inescapable and in politics, money is power. Every political strategy requires funding at some level and usually, the best funded ideas move forward.

More than 70% of Americans oppose abortion on demand, yet we have abortion on demand and the leftists running DC are about to make every taxpayer pick up the tab for abortions on demand. This is due to the fact that although most Americans oppose the idea, the pro-abortion lobby outspends the pro-life lobby by a 5-to-1 margin.

If the pro-life folks (70% of citizens) outspend the pro-abortion lobby by a 3-to-1 margin, we will not have abortion on demand tomorrow. That's because politicians are reliably loyal to their power source, the money!

If American patriots want to win, they will have to get in the game. At present, the right opposes the idea of "buying" their government, so they don't. The left is free to buy it...

While the moral and ethical objections to politics are understandable, they leave the right out of the game, and the left free to march forward into the abyss unchallenged.

Trial lawyers, labor unions, anti-American 527s and PACs rule the day in America at the moment, all because they are willing to spend whatever it takes to rule the day.

But what if the American Patriots were the most powerful lobby in Washington DC today? Would DC still be ignoring the patriot lobby? Who is the patriot lobby? Until today, there is no such thing!

In closing, Freedom Force will partner with only ONE of each type of group needed to lead the nationwide charge on any specific initiative, the one most capable of carrying that ball forward nationally, with integrity, purpose and funding. Freedom Force will strategically partner with ONE national leader in each viable initiative. But Freedom Force will affiliate with many.

Freedom Force will only endorse and assist patriot candidates who stand for the Charters of Freedom, not only in words but in deeds. The same goes for organizations.

Freedom Force does NOT seek to stop any grassroots efforts, quite the contrary. We hope to help make all of those efforts more productive. But we do seek to bring all patriots together in ONE national “game changer” so that we can begin to affect change right away.

There are only three ways to join Freedom Force

1. Individual Freedom Force members – who make personal pledges to support the Freedom Force project in addition to working at the grassroots level via other initiatives endorsed by Freedom Force.
2. Strategic Partnering – in which Freedom Force relies upon the national works of other key organizations, such as candidate vetting or precinct chair initiatives, and provides funding to these groups so that they can be more productive.
3. Group Affiliations – in which existing grassroots groups share Freedom Force information with members and Freedom Force directs its members to work within the different grassroots affiliates at the local and state level.

Alone, divided, we are unable to succeed in preserving freedom, liberty and prosperity for future generations. But together, well organized, well funded and united, the left stands no chance against the true American patriot.

Please join us at Freedom Force! We are only taking pledges of support today. You can pledge any amount. But pledging puts you on a mail list of patriots willing to take direction action and personal responsibility for the future of freedom and liberty.

We will not ask for actual donations unless we are able to launch with adequate support from day one. Preparations for a launch are optimistically underway. We have thousands of supporters across the country already, but it will take millions of supporters to make it happen.

If we all give a little, we can do a lot! We will gauge support on December 16, 2009. We are taking pledges through 12-15-09.

www.FreedomForce.us

Standard Objections

Why Freedom Force? - If not Freedom Force, then who?

It's too big of a challenge to unite everyone! – Then we are already finished...

Why not an existing group? – What existing group has it all together along with the funding to make it happen?

I can't afford to give! – Can you afford not to give? If you think you're broke today, wait a few more months!

What if faction leaders don't agree? – It's the people who have the power, not faction leaders. With a million patriots on-board, we only need a few real leaders to lead specific parts of the strategy. Those with motives other than saving freedom will fall by the wayside.

Is there time to carry out the strategy? – Time is our greatest concern. Many of the policies being rushed into place right now cannot be reversed without it causing a complete collapse of the US economy. Time is NOT on our side. But only a top-down "game changer" can buy the time needed to carry out the grassroots initiatives.

Do we really need all that money? – In a word, YES! Leftist 527's have already raised more than \$40 million for 2010, while the TOP 20 leftist PACs have already raised more than \$115 million for the 2010 election cycle. In contrast, the TOP 20 GOP PACs have only raised little more than \$7 million for 2010, with GOP 527s raising only about \$31 million thus far. Neither of these groups represent American Patriots today. So, how much do you think the patriot movement needs to be an affective lobby in Washington DC?

Simple Strategies work best! - An estimated 1.7 million patriots marched on DC back in September and nobody noticed. What would the patriot war chest be if all 1.7 million donated \$100 each in the name of freedom and liberty? What if all 49 million who voted against Obama last November donated \$100 each for 2010?

If the future of freedom, liberty and prosperity are not worth \$100 each, then they aren't worth anything at all.

Get in the game!
